#### **About EAB**

EAB is a best practices firm that uses a combination of research, technology, and data-enabled services to improve the performance of more than 1,300 educational organizations. EAB forges and finds the best new ideas and proven practices from its network of thousands of leaders and then customizes and hardwires them into every level of member organizations, creating enduring value. For more information, visit eab.com.

## About the Enrollment Management Forum's Marketing and Recruiting Effectiveness Center (MREC)

MREC is EAB's new research resource for enrollment teams, supporting strategic decision-making and targeted improvement efforts in marketing and recruiting. Our research team continually evaluates existing and emerging ideas and pinpoints those that are the most viable.

MREC shares new findings each quarter through a suite of deliverables, including:

- · Short research briefs and white papers
- · Live webinars
- · Expert takes on emerging issues
- · Decision-making tools and discussion guides

#### LEGAL CAVEAT

EAB Global, Inc. ("EAB") has made efforts to verify the accuracy of the information it provides to members. This report relies on data obtained from many sources, however, and EAB cannot guarantee the accuracy of the information provided or any analysis based thereon. In addition, neither EAB nor any of its affiliates (each, an "EAB Organization") is in the business of giving legal, accounting, or other professional advice, and its reports should not be construed as professional advice. In particular, members should not rely on any legal commentary in this report as a basis for action, or assume that any tactics described herein would be permitted by applicable law or appropriate for a given member's situation. Members are advised to consult with appropriate professionals concerning legal, tax, or accounting issues, before implementing any of these tactics. No EAB Organization or any of its respective officers, directors, employees, or agents shall be liable for any claims, liabilities, or expenses relating to (a) any errors or omissions in this report, whether caused by any EAB organization, or any of their respective employees or agents, or sources or other third parties, (b) any recommendation by any EAB Organization, or (c) failure of members and its employees and agents to abide by the terms set forth herein.

EAB is a registered trademark of EAB Global, Inc. in the United States and other countries. Members are not permitted to use these trademarks, or any other trademark, product name, service name, trade name, and logo of any EAB Organization without prior written consent of EAB. Other trademarks, product names, service names, trade names, and logos used within these pages are the property of their respective holders. Use of other company trademarks, product names, service names, trade names, and logos or images of the same does not necessarily constitute (a) an endorsement by such company of an EAB Organization and its products and services, or (b) an endorsement of the company or its products or services by an EAB Organization. No EAB

#### IMPORTANT: Please read the following.

EAB has prepared this report for the exclusive use of its members. Each member acknowledges and agrees that this report and the information contained herein (collectively, the "Report") are confidential and proprietary to EAB. By accepting delivery of this Report, each member agrees to abide by the terms as stated herein, including the following:

- All right, title, and interest in and to this Report is owned by an EAB Organization. Except as stated herein, no right, license, permission, or interest of any kind in this Report is intended to be given, transferred to, or acquired by a member. Each member is authorized to use this Report only to the extent expressly authorized herein.
- Each member shall not sell, license, republish, distribute, or post online or otherwise this Report, in part or in whole. Each member shall not disseminate or permit the use of, and shall take reasonable precautions to prevent such dissemination or use of, this Report by (a) any of its employees and agents (except as stated below), or (b) any third party.
- 3. Each member may make this Report available solely to those of its employees and agents who (a) are registered for the workshop or membership program of which this Report is a part, (b) require access to this Report in order to learn from the information described herein, and (c) agree not to disclose this Report to other employees or agents or any third party. Each member shall use, and shall ensure that its employees and agents use, this Report for its internal use only. Each member may make a limited number of copies, solely as adequate for use by its employees and agents in accordance with the terms herein.
- 4. Each member shall not remove from this Report any confidential markings, copyright notices, and/or other similar indicia herein.
- Each member is responsible for any breach of its obligations as stated herein by any of its employees or agents.
- If a member is unwilling to abide by any of the foregoing obligations, then such member shall promptly return this Report and all copies thereof to EAB.

## The Visit Begins at Registration

## Treat the Registration Portal as the Digital Front Door to Your Campus

For many prospects and their families, your campus pages and visit registration system are the first real interaction they have with your institution. This means the look, feel, and usability of your pages set the tone for the rest of their relationship with the institution. Visitors to your website will also subconsciously compare the visit scheduling experience to their other online transactions and registrations, meaning you should pay attention to current norms outside of higher education:

- · Eventbrite offers a seamless, one-click way to add events to calendars from confirmation emails
- · Retailers such as Amazon send nearly instant confirmation emails after any transaction takes place
- Airlines and travel companies send confirmation accompanied with "things nearby" info for travelers

#### **Registration Experience Audit Elements**

**Design & Usability** 

### **Ease of Completion**

### **Information Delivery**

#### **Important Considerations:**

- Look and feel of the pages and forms themselves
- Ability to use the system on most or all device types
- Ease of locating registration on the institution website

## **Important Considerations:**

- Balance between gathering info and creating a simple process
- Amount of time required to complete a registration
- Way the form design creates an intuitive registration process

#### **Important Considerations:**

- Easy-to-find event and school information during registration
- Clear ways to get help or make an appointment change/cancellation
- Timely follow-up once a visit has been scheduled

This activity should take **30-45 minutes** to complete.

You will need this audit document, a desktop computer, a tablet, a mobile phone, and a timing device/stopwatch.

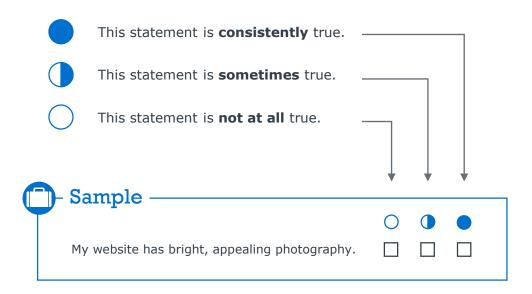

## How to Use This Tool

## Calculating Your Improvement Opportunity Score

This audit is intended to help focus attention on important areas for improvement and should be considered an indicator of patterns rather than a definitive score. You will work through this audit to create an improvement opportunity score. The higher the score, the greater the opportunity is for making strategic changes to that area. There are two types of self-assessment questions on this audit.

## **Type 1: Scoring Questions**

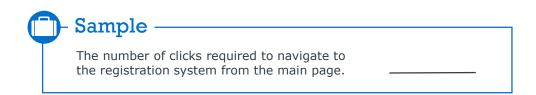

This uses a simple three-item scale to assess each statement. Do not choose "consistently true" unless you feel the page you are auditing reflects the statement 100%. The scale is explained below:

These responses are then translated into point values that contribute to your improvement opportunity score. Conversion details are included in the final portion of this self-assessment.

### **Type 2: Measurement Questions**

These questions ask you to measure or count some aspect of your website. You will need to write the corresponding value in the blank provided next to the question on the checklist.

## Design & Usability

Work through the following items using the three-item scale (consistently, sometimes, not at all) or a specific measurement to answer each statement. Make comments to the side when you come across any areas you notice need changes. **Unless otherwise noted, start on the main Admissions homepage.** 

All Admissions pages on the website have a consistent template and look.  All Admissions pages on the website align with the overall institutional branding.  The Admissions pages incorporate bright, appealing photography.  Aesthetically pleasing imagery makes up at least 20% of the content on the visit landing page.  Average number of graphic elements distorted, pixelated, or skewed per page (check 3+ pages).  It is obvious where to go from any page in order to register for a campus visit or other event.  The number of clicks required to navigate to the registration from the university main page.  The Admissions website shows the path a visitor took to get to a given page (e.g., A > B > C).  Usability  The Admissions pages on the website are responsive to all device types (esp. mobile).  The registration form or system itself is responsive to all device types (esp. mobile).  The registration form or system has few images or large elements, allowing it to load quickly.  Registration form labels (e.g., "name" or "email") are intuitively placed to help visitors register.  The website and registration form or system are both accessible to users with disabilities.  The purpose of each page on the Admissions site is clear without substantial effort.		– The Look –––––

## **Ease of Completion**

Work through the following items using the three-item scale (consistently, sometimes, not at all) or a specific measurement to answer each statement. Make comments to the side when you come across any areas you notice need changes. **Unless otherwise noted, start on the registration page itself.** 

Ease of Use —————				ı
	0			Comments
The registration form asks new prospects only for information essential to the visit or event.				
The registration system warns visitors early if there is specific information they need to gather.				
The registration form makes it clear which details are optional or required.				
The form's flow of questions is intuitive (e.g., contact info before program or major questions).				
The registration system breaks long forms into shorter portions (e.g., contact info, date, etc.).				
The form validates errors as they are made so a visitor can easily correct them.				
Field Count —				
Number of <b>required</b> fields. (Count text boxes, drop-down menus, check-box questions, etc.)				
Number of <b>optional</b> fields. (Count text boxes, drop-down menus, check-box questions, etc.)				
Time to Complete ————				
You should create a fake persona to register using devices. This will ensure that variations in the tim are based on the device rather than the information Start the timer at the same point for each of the t	ne to c on bei	omple ng inp	te	
Length of time (minutes) it takes to complete a registration on a laptop/desktop computer				
Length of time (minutes) it takes to complete a registration on <b>a tablet</b>				
Length of time (minutes) it takes to complete a registration on a mobile phone				
<b>Average length of time</b> (minutes) to complete a registration (laptop + tablet + mobile / 3)				
				Total Score:

## **Information Delivery**

Work through the following items using the three-item scale (consistently, sometimes, not at all) or a specific measurement to answer each statement. Make comments to the side when you come across any areas you notice need changes. **Unless otherwise noted, start on the main Admissions homepage.** 

	Finding Info ————			
C		0		Comments
	It is possible to determine target audience for each visit/event without opening more links.			
	The visit and events pages clearly help visitors determine which offerings to attend.			
	There are at least two ways on each page to get in touch with Admissions for help or questions.			
	It is clear how to modify or cancel a reservation for any registration a visitor might make.			
	Follow-Up Info ————			
	-	$\circ$		
	The length of time (in hours) it takes to receive a confirmation after making a reservation			
	The confirmation email includes instructions to change or cancel the reservation.			
	The confirmation email includes clear descriptions of what to expect on the day of the visit/event.			
	The confirmation email explains how to arrive (parking, driving/public transit directions, etc.).			
	A reminder message goes out at least 48 hours ahead of the appointment a visitor makes.			
				Total Score:

Scoring details are on the next page.

## Scoring Your Self-Assessment

## Calculate Your Improvement Opportunity Score in Each Area

Convert your self-assessment marks to a score by assigning the following values to each category: 1 point 2 points 3 points Add these points to any values you wrote directly on a blank (\_\_\_\_\_) to find your total improvement opportunity score for each page. The sample below illustrates this procedure: Navigation - $\bigcirc$ It is obvious where to go from any page in order 1 point to register for a campus visit or other event. The number of clicks required to navigate to the 6 points 6 registration system from the main page The Admissions website shows the path a visitor 2 points X took to get to a given page (e.g. A > B > C). 9 total points

> With your final scores tabulated, turn to the last page to identify the areas that should be your strategic priorities for improving your event registration system and communications.

## My Team's Improvement Opportunity Scores

## Identifying the Places Where Intervention Will Result in Big Gains for Visitors

Your improvement opportunity scores for each section will guide your efforts by showing you where you fall on the scales below. EAB recommends targeting the highest scores first in order to make the largest impact on registrant experience.

## Design & Usability -

- **12 19** Your registration experience scored very well! Nothing needs to be done in this area.
- **20 27** Visitors will benefit from your targeted improvement. Focus on any subsection with clustered points.
- **28 36** Visitors experience significant challenges with your registration. Focus on broad usability and design changes.
- **36+** Your registration experience is not designed for usability; EAB recommends a total strategic redesign.

## Ease of Completion -

- **20 31** Your registration experience scored very well! Nothing needs to be done in this area.
- **32 43** Visitors will benefit from your targeted improvement. Focus on any subsection with clustered points.
- **44 55** Visitors find completing this registration cumbersome; make allover changes to increase the simplicity of finishing registration.
- **55+** Your registration experience is far too difficult, and EAB recommends a redesign to make registration easier.

## **Information Delivery**

- **8 14** You already give visitors good information in a timely fashion. No changes are needed unless you have specific details you want to add.
- **15 21** Visitors will benefit from a little more information built into your current pages and confirmations, so add FAQs or important details to what you already offer.
- **22+** Your visitors (a) struggle to find the information they need or (b) want more follow-up than they get. EAB recommends building more information into your approach.

### Gut Check -

- I have no critical areas. Even if your assessed site scores very low in all areas, you can take the highest scoring element(s) in each section and work with your team to improve those areas. This self-assessment gives clear ideas about what considerations matter most.
- I reached a very high score. This does not mean the registration site is bad—sometimes usability or form flaws are the result of vendors, IT rules, etc. Start with things wholly in your control first before tackling others, and set goals to systematically work through the highest-scoring sections.

**Tip:** This summary page can be a useful tool to take to meetings to provide sample evidence of why your institution's registration experience may need improvement or adjustment.

## Advisors to Our Work

## **With Sincere Appreciation**

The Enrollment Management Forum is grateful to the individuals and organizations that shared their insights, analysis, and time with us. We would especially like to recognize the following individuals for being particularly generous with their time and expertise.

### **Baylor University**

Dr. Sinda Vanderpool Associate Vice Provost for Academic Enrollment Management

Ross VanDyke Director of Admissions Recruitment

Jessica King Gereghty Assistant Vice President of Undergraduate Admissions and Enrollment

Lynn Wisely Director of Undergraduate Enrollment Initiatives

#### **Central Michigan University**

Steven Johnson
Vice President Enrollment
and Student Services

### **Clarion University**

Carrie Thompson Assistant Director of Admissions

#### **Clemson University**

Kaela Gardner Freshman Admissions Counselor

Jessie Hackel Experience Clemson Center Coordinator

### **Gettysburg College**

Gail Sweezey
Director of Admissions

### **Hamline University**

Mai Nhia Xiong-Chan Dean of Undergraduate Admission and Financial Aid

#### **Hendrix College**

Jennifer McKenzie Associate Director of Campus Visitation

#### **Lynn University**

Tierra Thompson Campus Visit Coordinator

### Metropolitan State University of Denver

Vaughn Toland Director of Admissions

#### **Northern Arizona University**

Chad Eickhoff Director of Undergraduate Admission

Chris Phillips Assistant Director, Welcome Center

Sara-Jean Gilbert Assistant Director of Admissions

#### **Primacy**

Jeff Johnson SVP of Strategic Practices / Managing Director

### **Regis University**

Kim Frisch Dean of Admissions
