Legal Caveat

EAB Global, Inc. ("EAB") has made efforts to verify the accuracy of the information it provides to partners. This report relies on data obtained from many sources, however, and EAB cannot guarantee the accuracy of the information provided or any analysis based thereon. In addition, neither EAB nor any of its affiliates (each, an "EAB Organization") is in the business of giving legal, accounting, or other professional advice, and its reports should not be construed as professional advice. In particular, partners should not rely on any legal commentary in this report as a basis for action, or assume that any tactics described herein would be permitted by applicable law or appropriate for a given partner's situation. Partners are advised to consult with appropriate professionals concerning legal, tax, or accounting issues, before implementing any of these tactics. No EAB Organization or any of its respective officers, directors, employees, or agents shall be liable for any claims, liabilities, or expenses relating to (a) any errors or omissions in this report, whether caused by any EAB Organization, or any of their respective employees or agents, or sources or other third parties, (b) any recommendation by any EAB Organization, or (c) failure of partner and its employees and agents to abide by the terms set forth herein.

EAB is a registered trademark of EAB Global, Inc. in the United States and other countries. Partners are not permitted to use these trademarks, or any other trademark, product name, service name, trade name, and logo of any EAB Organization without prior written consent of EAB. Other trademarks, product names, service names, trade names, and logos used within these pages are the property of their respective holders. Use of other company trademarks, product names, service names, trade names, and logos or images of the same does not necessarily constitute (a) an endorsement by such company of an EAB Organization and its products and services, or (b) an endorsement of the company or its products or services by an EAB Organization. No EAB Organization is affiliated with any such company.

IMPORTANT: Please read the following.

EAB has prepared this report for the exclusive use of its partners. Each partner acknowledges and agrees that this report and the information contained herein (collectively, the "Report") are confidential and proprietary to EAB. By accepting delivery of this Report, each partner agrees to abide by the terms as stated herein, including the following:

1. All right, title, and interest in and to this Report is owned by an EAB Organization. Except as stated herein, no right, license, permission, or interest of any kind in this Report is intended to be given, transferred to, or acquired by a partner. Each partner is authorized to use this Report only to the extent expressly authorized herein.
2. Each partner shall not sell, license, republish, distribute, or post online or otherwise this Report, in part or in whole. Each partner shall not disseminate or permit the use of, and shall take reasonable precautions to prevent such dissemination or use of, this Report by (a) any of its employees and agents (except as stated below), or (b) any third party.
3. Each partner may make this Report available solely to those of its employees and agents who (a) are registered for the workshop or program of which this Report is a part, (b) require access to this Report in order to learn from the information described herein, and (c) agree not to disclose this Report to other employees or agents or any third party. Each partner shall use, and shall ensure that its employees and agents use, this Report for its internal use only. Each partner may make a limited number of copies, solely as adequate for use by its employees and agents in accordance with the terms herein.
4. Each partner shall not remove from this Report any confidential markings, copyright notices, and/or other similar indicia herein.
5. Each partner is responsible for any breach of its obligations as stated herein by any of its employees or agents.
6. If a partner is unwilling to abide by any of the foregoing obligations, then such partner shall promptly return this Report and all copies thereof to EAB.

Appendix A: Additional Webpage Best Practices	14
Appendix B: Research Parameters and Additional Sources	16

Executive Overview

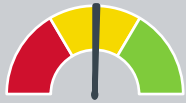

Key Takeaways for University A’s Division of Continuing Education and Data Science Certificate Program Web Presence

This report outlines opportunities to improve the Division of Continuing Education homepage and the Data Science Certificate Program webpage. It also identifies ways in which these pages are aligned with best practices for web design that supports recruitment. Each section of the report focuses on a specific aspect of your web design or content, indicating criteria reviewed by EAB staff, a description of how the webpage performs on those criteria, and a score summarizing EAB’s overall assessment of that aspect of your site.

Overall Evaluation: Needs Improvement

University A’s Division of Continuing Education homepage and Data Science Certificate Program page demonstrate significant areas for improvement.

Audit Category	Website Performance
<p>Unit Homepage: Organization and Navigation</p> <p>Your unit homepage should be easy to access and navigate so that students can find and search for relevant programs quickly. While the organization of the homepage is good, more consistent page headers and layouts of sub-pages would align with best practice.</p>	
<p>Program Webpage: Discoverability</p> <p>Prospective students should be able to find your program webpage quickly via search engines and from the institution’s homepage. The program was easy to navigate to on the desktop version of the institution’s website, but not the mobile version. Additionally, the profiled program was often not the top result on Google.</p>	
<p>Program Webpage: Visual Design</p> <p>Your program webpage should be visually appealing, aligned with your institutional brand, and easy to navigate. The program and the institution shared strong branding, but the program webpage could be improved with more media and stronger program content.</p>	
<p>Program Webpage: Content Strategy</p> <p>Visitors should easily be able to locate key program details, especially those most aligned with adult learners’ needs. Overall, more content needs to be listed about the program on the main program webpage to capture student interest.</p>	

Key

- **Great:** Earned >75% of possible points
- **Good:** Earned 50%-75% of possible points
- **Needs Improvement:** Earned <50% of possible points

Executive Overview (2)

Key Takeaways for University A's Division of Continuing Education and the Data Science Certificate Program Webpage

Web Presence Audit Findings

Web presence strengths include:

- **Webpage branding is consistent between the unit webpage, the program webpage, and the broader University A webpages.** This connection facilitates current and prospective students' connection to the greater University A community.
- **The Data Science Certificate Program is easy to find and navigate to on search engines if searched directly.** While the program was difficult to find while searching generally for data science certificates, students can easily find the program when searching directly for it.

Web presence areas for improvement include:

- **The program webpage does not prioritize sufficient key information.** While length, format, and cost are listed on the webpage, important program characteristics like curriculum, career outcomes, and student experience are missing.
- **The program webpage does not feature any contact details,** making it difficult for students to reach out with specific questions beyond the Request for Information form.
- **Inconsistent page headers and top-of-page menus make navigation difficult.** Consistent page headers remind prospective students they are within the Division of Continuing Education webpages. Similarly, consistent menu options would allow for an easy, frictionless experience.

Recommended Next Steps

- See EAB's [Reading List for Staying Current on SEO Trends](#) and EAB's [How-To Guide for Validating Prospect Search Terms](#) for more information on how to effectively optimize your program's searchability.
- Ensure webpage content increases student access and interest. See EAB's study on [Competing on Student Outcomes to Attract Today's Career Changer](#) to learn more.
- Ask your Strategic Leader to schedule an expert call to debrief these results.
- Ask your Strategic Leader to schedule EAB experts to present our marketing and recruitment research to your team. We recommend "Meeting the Moment of Mega-Stealth Shopping" and/or "Attracting, Recruiting, and Enrolling Adult Learners."

In addition to the tools linked above, EAB's [Web Presence Optimization Toolkit](#) includes additional tools to improve your website.

Evaluation of Unit Homepage: Organization and Navigation

Division of Continuing Education

Your unit homepage should be easy to locate and navigate. The homepage should help prospects quickly search for programs. Page layouts should be consistent across all program pages.

Needs Improvement: The homepage is difficult to access and navigate.

Audit Results: Unit Homepage Organization and Navigation

Website URL: **Redacted**

Recommended Practice	Audited Practice	Score
<p>Can webpage users easily locate the following: a consistent top-of-page menu, the institutional homepage link, contact details, and an “about us” section or link? Prospective students should easily navigate through the unit homepage and find their desired pages.</p>	<p>Webpage users can easily find contact details, a Request for Information section, and an about us section in the top-of-page menu. However, key information about the unit is split between the about us section and the “Welcome from the Dean.”</p> <p>EAB recommends listing information about the unit, the types of programs the unit offers, and the way the unit serves learners on the main about us page. This information can then be reiterated, but not solely located, in separate pages like the “Welcome from the Dean.”</p>	2
<p>Are specific program pages well organized and easy to find through site navigation and on-site search tools?</p> <p>For example, search filters help prospective students navigate to their chosen programs. Allowing students to filter by subject area, credential type, or modality improves the search experience, particularly for those who are undecided in their choice of credential.</p>	<p>The top-of-page menu clearly links to offered programs but there is no program search function. Create a program search function that incorporates program filters such as credential type, program length, and subject on the unit homepage.</p>	0
<p>Are the unit webpage menu subdivisions and labels intuitive and understandable?</p> <p>Providing menu subdivisions communicates content quickly to unfamiliar web visitors. Visitors unsure how to find desired content within the site may abandon it rather than digging through unclear menus.</p>	<p>The unit webpage includes subdivisions and labels that distinguish program types, including “Professional Certificates,” and “Credit and Degree Programs.” However, there is little unit-wide information present (e.g., tuition and fees, student services, admissions information).</p> <p>Program affordability and student services are top of mind for prospective students. Without this information, students may be deterred from considering your offerings.</p>	1
<p>Do like page types follow a consistent layout with information located in similar locations?</p> <p>Program webpages should have a similar look and feel, with key information located in the same places on each program webpage. A seamless experience among program webpages will encourage browsing and simplify prospective students’ search.</p>	<p>While there are similarities among layouts, there are substantial differences in the location of information and page elements, like the use of top-of-page menus and linked subpage rectangles/squares. Some information is listed in both the menu and in the linked sub-page rectangles, specifically under the “Credit and Degree Programs” tab.</p> <p>Additionally, if the URL redacted webpage is accessed (the old URL can be accessed via the “Enroll Now” action item), it is difficult to navigate back to the rebranded website URL listed above.</p>	1

Evaluation of Unit Homepage: Organization and Navigation (2)

Division of Continuing Education

Audit Results: Unit Homepage Organization and Navigation

Website URL: *Redacted*

Recommended Practice	Audited Practice	Score
Is there an efficient and frictionless way to navigate from the main institution homepage to the unit homepage?	The Division of Continuing Education webpage is under the list of schools on the main University A homepage.	3
Is the site navigation optimized for use on a mobile device? Today, prospects are likely to be searching for programs on a mobile device. Ensure that your site navigation is functional on a mobile device.	The Division of Continuing Education is not under the list of schools in the mobile version of the main University A homepage. However, once on the unit homepage, it was navigable on a mobile device.	1
Are navigational breadcrumbs present to provide context for where a viewer is on the site? For example, headings and menus should clearly indicate the specific site a viewer has navigated to. This will help a viewer return to the main page or navigate to other key information.	After leaving the unit homepage, it is difficult to navigate back to the unit's page due to the use of different headers for each new sub-page. For a seamless navigational experience, consider maintaining a consistent header of "The Division of Continuing Education" and placing a sub-page specific header elsewhere on the page.	1
