

TRANSFER PORTAL TOOLKIT

Transfer Lead and Inquiry Toolkit

This resource can be used to design new processes and content for improving communications with prospective transfer students.

Table of Contents

Tool #1: Buying Cycle-Based Lead Naturing Map

Diagrams the progressions of lead-scoring stages, the prevailing mindset of prospects in each stage, and corresponding marketing messages to nurture leads toward applications and enrollment.

Tool #2: Communication Plan Builder

Includes a decision tree to help partners understand the strategic variables that impact communication plan development, as well as a sample communication plan for prospective transfer students who have used the Transfer Portal.

Tool #3: Lead-Prioritizing Phone Script

Phone conversations used at the right stage can be highly compelling to a prospective student and useful for gauging their interest and likeliness to convert. Successful use of student ambassador-delivered phone calls can be a way to save transfer counselor's time.

Tool #4: Personalized Email Builder

Distills lessons learned and includes a sample template designed to help staff build engaging emails – from the subject line to the signature.

Tool #5: Follow-up Conversation Scripting Tool

Provides a series of talking points that can be used by enrollment counselors to solicit the information needed to develop a prospect's customer profile and better tailor future communications.

Tool #1: Buying Cycle-Based Lead Nurturing Map:

Crafting communication material suited to prospects' needs and expectations as they move through the funnel is a highly effective way of keeping transfer leads engaged. However, most recruiting units struggle with the seemingly high-touch nature of such exchanges because they do not develop tailored content. Instead, they use one-size-fits-all communications across the funnel or re-purpose first-time in college messaging.

The **Buying-Cycle-Based Lead Nurturing Map** will help you develop lead-nurturing content that better meets prospects desires as they progress through the funnel.

Implementation Note: Though it can be difficult to accomplish, collaboration between marketing and academic subject matter experts yields the highest quality communication material. This tool can facilitate such collaborations by providing a checklist of communication materials to which subject matter experts are best suited to contribute, while leaving the branding and strategy components to marketing.

Stage in the Funnel	Place in Buying Cycle	Preferred Messaging	Targeted Content Checklist
Prospect: Initiated contact (email, phone call, inquiry form, visit) Was referred by someone else Visited website and explored Transfer Portal tool	Interested Researching Considering	High-level educational information	Emails covering: How to complete the application & FAFSA FAQ Testimonials & outcomes Financial aid Faculty profiles Curriculum
 Stopped responding to email/calls Completed one or some of the above actions but stalled 	Anxious	Specific, program-level information	Emails, scripts/talking point for conversations & live chain-person event agendas covering: Testimonials Career outcomes Faculty profiles
Application in Progress: Started an application	Anxious	Reassurance and reminders	Emails, scripts, for conversations, and live chard Outcomes Expectations Deadlines
Applicant: • Completed application			Emails, scripts for conversations, and events: Outcomes Expectations

Tool #2: Communication Plan Builder

A strong communication plan is instrumental for nurturing prospects through the funnel without making unrealistic demands of Admission counselors. However, the myriad of factors involved like duration, frequency, content, and program type make the process of building communication plans daunting.

The **Communications Plan Builder** simplifies this process by bringing order to it. It lays out key considerations when building a plan and describes an example communication plan.

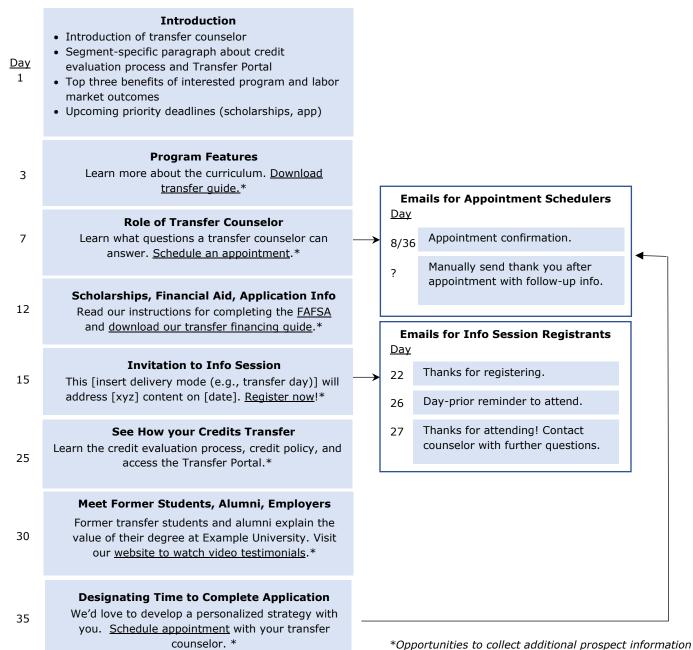

Primary Consideration: Program Type

This table explains how automated communication plans should differ according to program type, which is the primary "independent variable" that communications can be configured around.

Program Type	Max Frequency	Duration	Content
Certificate	1-2 times per week	3 months	 Alumni outcomes Faculty's field experience Credit transfer to degree program Curriculum alignment with industry standards Convenience Modalities Start dates Duration
Undergraduate Degree Completion	1-2 times per week	4-6 months	 Convenience Modalities Start dates Duration Financial aid Student profiles addressing key concerns: Work-life-school balance Academic rigor Curriculum Credit transfer Experiential credit

Example Communication Plan for a Transfer Prospect who used Transfer Portal

This plan suggests the order and variety of content that could be communicated to a prospective transfer student who has used the Transfer Portal.

Opportunities to conect additional prospect information

Implementation Tips for Creating a Communication Plan

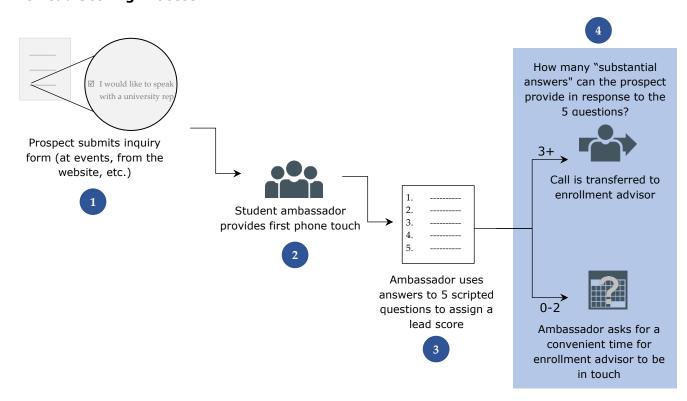

- ✓ Always Look for Low/No-Pain Ways to Collect More Information: Each prompt to follow a link (e.g., to register for an event, schedule a conversation, use the Transfer Portal, or a net price calculator, etc.) is an opportunity to collect additional information about the prospect through a quick survey or RFI.
- ✓ **Save Time by Recycling Material**: To the extent possible, aim to create a communication plan that confines program-specific unique content to just a few steps in the communication plan (i.e., Program Features, Faculty are Experts). The emails at each of the remaining steps can reuse content from other communication plans and be reused themselves.
- ✓ **Consistently Incorporate Calls to Action**: Contacts advise that each message should contain one or two calls to actions. Popular ones include: Application Deadline, Register Now, Talk to your Transfer Counselor, See How your Credits Transfer, and Register to Attend a Transfer Event.

Tool #3: Lead-Prioritizing Phone Script:

Research shows that phone conversations used at the right stage in the buying process can be highly compelling to a prospective student and useful for gauging interest and likeliness to enroll. However, many units struggle to provide such high-touch interaction with all prospects with limited staff capacity. Metropolitan State University worked around their staff size by using student ambassadors as ancillary phone staff. By completing the initial phone screen, student ambassadors prioritize phone follow-up delivered by enrollment advisors.

The **Lead-Prioritizing Phone Script** profiles Metropolitan State's ambassador-driven phone screen process, including the script ambassadors use to score leads before making recommendations to enrollment advisors.

The Lead Scoring Process

- 1. The process begins when a **prospective student submits an inquiry form**.
- 2. To save enrollment advisors' time, student ambassadors provide the first phone touch.
- 3. Over the course of the conversation, **ambassadors ask the prospect 5 questions** (see below). The script ensures the quality of the conversation as well as the uniformity of lead scores.
- 4. The number of "substantial answers" (defined as a response of more than 5 words) a prospect can provide **earns them a score from 0-5**.
 - a. Ambassadors **immediately transfer hot leads, those with 3+ significant responses, to an enrollment advisor** for more in-depth conversation.
 - b. Ambassadors **ask warm leads, those with a score of 0-2, for a preferred date and time window** during which an enrollment advisor should be in touch. This gives cooler leads more space, while also providing enrollment advisors with greater scheduling flexibility.

Building a Transfer Student Script

Develop a script that asks meaningful questions in a thoughtful tone. Ideas for types of questions to ask prospective transfer students are listed below:

- 1. Motivations for transferring
- 2. Sources of worry
- 3. Programs/areas of interest
- 4. Need-to-have components of a program/institution/experience
- 5. Previous educational experience and expected transfer courses

Lead-Scoring Script

- 1. What's going on that is driving your decision to transfer?
- 2. What are some of the considerations you're weighing as you choose to transfer?
- 3. What type of program and college will help you achieve your goals?
- 4. Are there specific characteristics you are looking for in a program or university?
- 5. Do you have questions or concerns about transferring to Example University?

Ideally, the intelligence derived from the call will be used not only to score the lead, but to identify meaningful ways to continue the conversation in the future. For example, a prospect who voices worries about how their credits will transfer would highly value an email about connecting with a transfer advisor or using the Transfer Portal.

Tool #4: Personalized Email Builder

Template e-mails save staff members time as they manage a large volume of outreach. However, many template emails are impersonal or bland. This tool outlines a framework for templates that feel personalized through an engaging voice that fits the purpose of the email and the institutional identity.

Complete the worksheet below to help your team think through how to craft each e-mail component for the best possible open and action rates.

Email Builder Worksheet

From Field: john.smith@example.edu

> Send e-mails from a transfer advisor's email address.

Subject Line

Consider the following subject line strengtheners:

- <u>Prospect's Name Example</u>: Ben, thanks for your interest. I have a few answers to your questions.
- Question Example: Why do you want to transfer to ExU?
- <u>Casual Greeting Example</u>: Hello from ExU! We have stress management tips to share!
- <u>A Call-to-Action Example</u>: Meet with a Transfer Counselor: Register for the next session before Friday.

List two elements from the list above that you would incorporate into a subject line.

Compare answers with a colleague and craft a sample subject line. Write your sample below:

Salutation:

It is recommended to address an e-mail to the prospect's first name or eliminating the salutation and beginning the e-mail with a casual greeting.

Consider the following salutations. Check the salutation that you think will best resonate with your prospective student audience based on the age and career level of your typical prospective transfer student:

Dear Brian, Hi, Brian: Generally, more appropriate for older, more executive audience, but test to be sure.					
Hello and thanks for your interest in Example University!					
Hi there! We're glad you are interested in the XXX program at Example University.					

E-mail Body

See the example below for sample text.

Sign Off and Signature

> Sign e-mails with a first name and including contact information in a signature:

Have a nice day!	Alternative sign offs:
Alan	• All the best, • Thanks again!
Alan@ExampleU.edu	• Take care, • Warm regards,
xxx-xxx-xxxx	

Sample Email: Thanks for Your Interest

Subject: Padma, thanks for your interest. Your transfer advisor has answers.

Hi Padma,

I'm glad to hear you're interested in Example University's XXX degree. While you continue to explore how your credits will transfer through our <u>Transfer Portal</u>, I'm available to meet via Zoom, phone, or person to chat more about any of your follow up questions.

Follow the link below and select a date and time that works best for you. Let me know what you'd like to learn more about, and we can make our conversation as quick or as in-depth as you like.

https://www.scheduletimewithme.com

In the meantime, check out our additional resources on the Transfer Portal. You can use the <u>Checklist</u> as a guide to stay on track and the <u>Campus Resources</u> to find more information about transferring to Example University.

I look forward to speaking with you soon.

Have a nice day! Margaret

Tool #5: Follow-up Conversation Scripting Tool

Programs with dedicated frontline prospect services staff typically equip call centers with tried and tested scripts. However, not every unit (or every program) employs call center staff and instead may rely on staff with other responsibilities (e.g., program directors, advisors, recruiters) or student workers for prospect outreach. This tool offers simple guidelines to ensure prospect phone outreach gathers the information needed to fill out transfer prospect profiles.

Implementation Note: Establish a process and shared space for recording responses (e.g., CRM).

Corresponding **Phone Conversation Script Segmentation Tactic** Fill Out Prospective Student Profiles 1. "I noticed you did not indicate your intended term. When do you Questions build upon intend to transfer?" optional inquiry fields 2. "Are you currently enrolled at another institution? Which one?" that were left blank. Illuminate a Prospective Student's Motivations 3. "What are some of the considerations you're weighing as you choose to transfer? [Note to transfer advisor: be prepared with thoughtful responses to financial aid/cost questions and concerns] 4. I see you selected XX program. Tell me more about your interest in this area and other programs of interest?" 5. "What factors will affect your program start date? What is your estimated start date?" Segment by 6. "What are your educational goals? Why are you interested in Motivation transferring to Example University?" Consider motivation when differentiating Possible Prospective Student Answers: communication. a. To advance in my current career b. To change careers c. For personal enrichment 7. "Do you have any questions or concerns about transferring to Example University?" [Note to transfer advisor: be prepared with thoughtful responses to transfer credit questions and concerns] Understand a Prospective Student's Demographic 8. "Which institutions have you attended in the past?" Segment by a. "What did you study? What did you like about those Demographic courses? What study tips will you apply in future Consider courses?" demographics when b. "What challenges did you face at your last institution?" differentiating 9. "Tell me about your career goals." communication. 10. "What responsibilities occupy most of your time? Let's talk about how Example U's curriculum and modality offers flexibility to meet you where you are."
