Colleges & Courses

What is the Colleges & Courses Tab?

The Colleges & Courses tab is where students can enter prior coursework. If there is no existing equivalency, they may also submit Pending Courses on this page.

Feature Overview

Once a student has selected programs of interest and clicks Continue, they are taken to the Colleges & Courses tab. The student is prompted to add a college or university. Predictive text in the search bar will assist the student in locating any prior institution.

Your search is limited to 20 results, add more text to narrow it down.

University of Virginia - Charlottesville, VA

University of Virginia - Quantico [Inactive], VA

Virginia Union University - Richmond, VA

Students may add an unlimited number of colleges or universities.

Once the student has selected an institution, they may use the "Find your course" search bar to locate their coursework.

🔍 Find your course

Only courses with active rules built in your SIS will show to the student. If the student does not see a course they have completed, they will be prompted to submit a Pending Course. For more information on Pending Courses, please see the Pending Course Workflow article.

Reminder: If a student has not yet created an account, they will need to do so before submitting a Pending Course.

As the student adds prior coursework, the Degree completion bar for each program adjusts to reflect progress to degree.
