Enhancements

Staff Log in

The Staff Login has been updated to Distinct Staff Login and displays the distinct number of users across the period of time selected in the User Activity Date filter. This data point is now displayed on the Utilization Summary dashboard.

Drill-in Details

All data points now can click and drill into the details of that data point and export from the Transfer Portal. The screen shot below shows the Distinct Staff Login drill-in.

Updated Dashboard Layout

Data points have been re-organized based on utilization metrics, all course activities, pipeline details, and year-over-year dashboards.

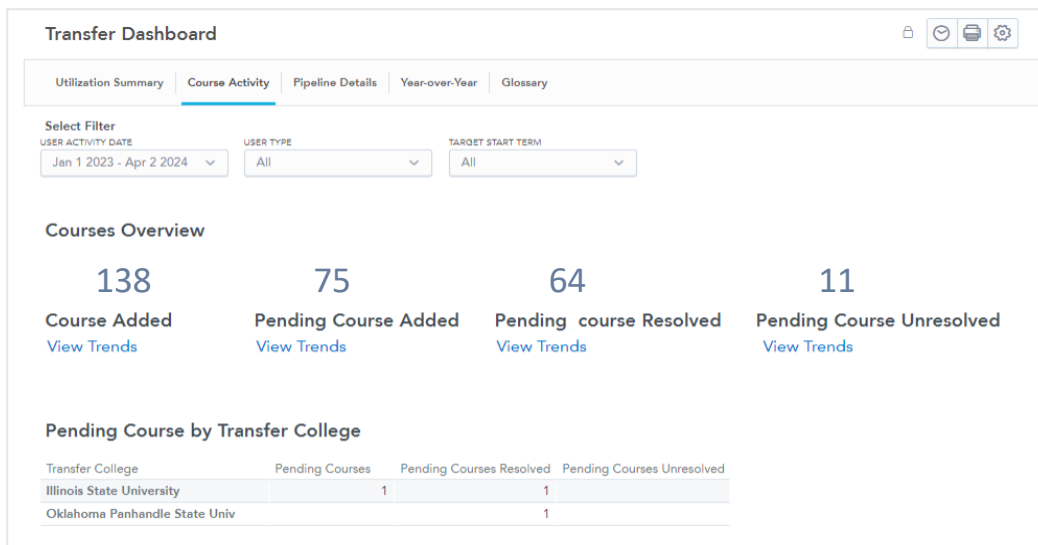

The previous Staff Activity dashboard has been updated to **Course Activity** dashboard and all course data points placed here broken into two sections.

Courses Overview

This section is an overview of the courses and pending courses added by students.

Data points to include:

- Courses Added
- Pending Courses Added
- Pending Courses Resolved
- Pending Courses Unresolved

Pending Course Resolution Overview

This section is an overview of the pending courses resolution statuses and staff time to resolution.

Data points to include:

- Receives Credit
- Without Review
- Did Not Receive Credit
- Time to Course Resolution

Fixed

Pipeline Details Tab

- The columns and data displayed on the tables within the Pipeline Details dashboard have been restored.
